

Hello Parents of Holy Rosary Academy:

As always, HRA has the best interest of their students in the forefront! Therefore, again this year, we will be partnering with HRA to offer support to students who need extra help with their academics.

- Students in need of the program will be referred by their teachers
- Tutoring sessions are held directly on the HRA campus during school hours
- One on one tutoring
- Direct communication with the teacher
- Tutoring in all subjects
- Parents are responsible for the financial cost

If you are interested in boosting your child's academics or would like individual tutoring for your student after school, please call for additional information.
